WRITTEN OPINION OF THE INTERNATIONAL SEARCHING AUTHORITY

International application No. PCT/US2005/000624

10/594335

	Box N	o. I Basis of the opinion
1.	With re	egard to the language , this opinion has been established on the basis of the international application in guage in which it was filed, unless otherwise indicated under this item.
	laı	is opinion has been established on the basis of a translation from the original language into the following nguage , which is the language of a translation furnished for the purposes of international search nder Rules 12.3 and 23.1(b)).
2.	With re	egard to any nucleotide and/or amino acid sequence disclosed in the international application and eary to the claimed invention, this opinion has been established on the basis of:
	a. type	of material:
		a sequence listing
		table(s) related to the sequence listing
	b. form	aat of material:
		in written format
		in computer readable form
	c. time	of filing/furnishing:
		contained in the international application as filed.
		filed together with the international application in computer readable form.
		furnished subsequently to this Authority for the purposes of search.
3.	ha co	addition, in the case that more than one version or copy of a sequence listing and/or table relating thereto as been filed or furnished, the required statements that the information in the subsequent or additional spies is identical to that in the application as filed or does not go beyond the application as filed, as opropriate, were furnished.
4.	Additio	onal comments:

IAP5 Rec'd PCT/PTO 27 SEP 2006

WRITTEN OPINION OF THE INTERNATIONAL SEARCHING AUTHORITY (SEPARATE SHEET)

PCT/US2005/000624

1. The following documents are referred to in this communication; the numbering will be adhered to in the rest of the procedure:

D1: US-A-4 312 344 (NILSON ET AL) 26 January 1982 (1982-01-26)

D2: US-A-5 496 285 (SCHUMACHER ET AL) 5 March 1996 (1996-03-05)

D3: US-B1-6 200 627 (LUBRECHT THEA E) 13 March 2001 (2001-03-13)

D4: US-A-4 500 310 (CHRISTINGER ET AL) 19 February 1985 (1985-02-19)

D5: WO 03/093108 A (COMAR, INC) 13 November 2003 (2003-11-13)

See point V of the report:

- 1. The present application does not meet the requirements of Article 33 (2) PCT, because the subject-matter of claims 1-4 and 23-25 is not new in the sense of Article 33 (2) PCT. Indeed, document D1 discloses all the features of mentioned claims, in particular figures 5,8,9 show the similar principle of piston which is elastically deformable for moving additional fluid distally in said passageway at the completion of the flush procedure. The same objection applies to DE-B-3525347 D4, see in particular col. 9, line 35 to col. 10, line 32 and figures 13 and 14.
- 2. A combination of the features of any of claims 5-22 with claim 1 and 26-32 with claim 23 would not result in an independent Claim involving an inventive step, since all the features appear to represent commonly known, non-inventive modifications.

See point VII of the report:

- 1. The description must be brought into conformity with the new claims to be filed; care should be taken during revision, especially of the introductory portion including any statements of problem or advantage, not to add subject-matter which extends beyond the content of the application as originally filed (Art. 34 2) b)).
- 2. To meet the requirements of Rules 6 3 b) the independent claim should be properly cast in a two part form, with those features which in combination are part of the nearest prior

WRITTEN OPINION OF THE INTERNATIONAL SEARCHING AUTHORITY (SEPARATE SHEET)

International application No.

PCT/US2005/000624

art being placed in the first part.

- 3. To meet the requirements of Rule 5.1 a vi, the cited documents should be identified in the description and the relevant background art therein is to be indicated.
- 4. The features of the claims are not provided with reference signs placed in parentheses (Rule 6.2(b) PCT).

See point VIII of the report:

1. Although claims 1 and 23 have been drafted as separate independent claims, they appear to relate effectively to the same subject-matter and to differ from each other only with regard to the definition of the subject-matter for which protection is sought and in respect of the terminology used for the features of that subject-matter. The aforementioned claims therefore lack conciseness. Moreover, lack of clarity of the claims as a whole arises, since the plurality of independent claims makes it difficult, if not impossible, to determine the matter for which protection is sought, and places an undue burden on others seeking to establish the extent of the protection.

Hence, claims 1 and 23 do not meet the requirements of Rule 6 PCT.
